MtgSlides-EPA20May08-Part1.ppt

Hello Kristine.

Attached is the first of four e-mails providing slides for next Tuesday's conference call/meeting to discuss using enhanced in-situ bioremediation near the river at the Siltronic facility.

<<MtgSlides-EPA20May08-Part1.ppt>>

Jim and I will be calling into the meeting next Tuesday at 10am.

The four e-mails provide information regarding the project background, the enhanced in-situ bioremediation (EIB) technology used at the site, EIB performance, Siltronic's conclusions, DEQ's concerns, an evaluation of EIB against DEQ's concerns, and DEQ's decision.

As you know, based on the information provided, DEQ did not select EIB for use near the river, but did approve it for use in the vicinity of the former solvent UST system (i.e., release area).

Please contact me if you have any difficulties receiving, opening, or reviewing the attachments and hope you have a good weekend.

Dana

Mr. Dana Bayuk, Project Manager
